

Make a Magic Potion

Amazing Fact

Research discovered that Halloween really does make children more 'evil'. When children are in groups and wearing masks, they are more likely to steal money or sweets, or take more than they are supposed to.

Challenge

If you could brew a magic potion, what would it make someone be able to do?

What ingredients would you include?

Write a description of the magic potion that you would invent, and then write a list of the ingredients.

You could also try to find out:

- what the history of Halloween is;
- what the average quantity of sweets that 'trick-or-treaters' get is;
- what the most popular outfit is.
